

Providing a platform to make championship moves

Ruimsig — Since the opening of their grand hall three years ago, Maragon Private School has had the annual privilege of hosting the Gauteng West Open Chess Championships.

On Friday, 20 and Saturday, 21 May, a total of 230 chess players – ranging from eight to 50 years old – descended upon the

school. These players played a total of six rounds, in the hope of improving their chess rankings within the Gauteng West region.

Maragon encourages its chess players to participate in the unrated and rated tournaments, as chess develops logical

thinking, promotes imagination and creativity, and teaches independence.

Players may enter these competitions from their first year at school.

• Details: Should you wish to be notified of future tournaments, please email nwr@gwchess.co.za to be added to the mailing list.
